SUMMARY

Software Engineer & Full Stack Developer with 6+ years of overall professional experience, including 4+ years of core web development expertise in WordPress, WooCommerce, Laravel, Drupal, and ReactJS. Proven ability to build scalable e-commerce platforms, custom themes and plugins, and seamless API integrations. Strong focus on performance optimization, SEO, and secure payment gateway implementation to deliver high-performing, user-centric web solutions. Experienced in AI-assisted development using Cursor AI.

SKILLS

CMS & E-commerce : WordPress, WooCommerce, Drupal, Magento
Backend : PHP, Core PHP, OOP, Laravel, Node.js, Express.js
Frontend : HTML, CSS, Bootstrap, JavaScript, jQuery, TypeScript, ReactJS
Database : MySQL, MongoDB
Tools & Integration : Git, GitHub, Trello, Project Management, REST APIs, JWT, Payment Gateways
Full Stack : MERN Stack

PROFESSIONAL EXPERIENCE

Software Engineer Jan 2022 - Present
Colan Infotech

- Enhanced responsive and scalable web applications, improving performance scores by 30% using optimization best practices.
- Built and maintained 15+ custom WordPress themes, plugins, and WooCommerce-based e-commerce solutions.
- Implemented Laravel-based backend modules with authentication, role-based access, and optimized MySQL queries.
- Integrated REST APIs and payment gateways such as PayPal and Razorpay, supporting secure transactions for 5K+ users.
- Developed scalable frontend applications using ReactJS, reusable components, REST API integration, state management, and dynamic data handling.
- Improved SEO and performance metrics using Lighthouse and PageSpeed Insights, achieving 90+ performance scores.
- Collaborated with cross-functional teams to deliver client projects on time with high code quality.

Junior Web Developer & Data Consultant Sep 2019 - Jan 2022
SM Matrix Solutions

- Designed responsive interfaces using HTML, CSS, Bootstrap, and WordPress.
- Customized WordPress themes across multiple client projects.
- Ensured cross-browser compatibility and consistent UI across desktop and mobile devices.
- Analyzed business data and generated reports to support operational and strategic decisions.
- Coordinated with team members to deliver projects within deadlines and scope.

PROJECTS

CarePilot AI — Smart Hospital Care Platform

Technologies : ReactJS, Node.js, Express.js, MongoDB, JWT, Razorpay, Gemini API, Groq API, REST APIs

- Built a MERN-based hospital care platform supporting patient, doctor, staff, and admin workflows.
- Implemented AI-assisted symptom routing, appointments, e-prescriptions, pharmacy, and visit workflows.
- Integrated Razorpay payments, guest payment links, invoicing, and staff payment reminders.
- Delivered responsive, multi-language interfaces with admin dashboard, analytics, and role-based workflows.
- Used Cursor AI to accelerate development, debugging, and code optimization.

LocalHeroMX

Technologies : WordPress, WooCommerce, Plugin & Theme Development, PHP, MySQL

- Engineered a custom WordPress plugin to manage 1,000+ bike plastic records efficiently.
- Structured custom post types to improve product organization and admin usability.
- Implemented advanced filtering and WooCommerce Add-to-Cart functionality.
- Optimized database queries and caching, reducing page load time by approximately 35%.

Online Quran Tuition

Technologies : WordPress, WooCommerce, Plugin & Theme Development, PHP, MySQL

- Built a service-based WordPress platform supporting flexible tuition plans and payment options
- Customized WooCommerce checkout flow using hooks to support advance and full payments
- Integrated Razorpay for secure transactions, handling 100+ successful bookings
- Designed a fully responsive interface using Bootstrap to improve mobile usability

Pure Harvest Farms

Technologies : Drupal, Core PHP, Twig, JavaScript, MySQL

- Contributed to Drupal frontend and backend development using Core PHP, custom modules, and Twig templates.
- Implemented dynamic content rendering and Drupal Views for scalable content management.
- Optimized backend logic and frontend components to improve performance and maintainability.

Family Database System

Technologies : Laravel 11, PHP, MySQL, Bootstrap 5

- Developed a Laravel application for managing multi-generation family relationships.
- Designed relational MySQL schemas for hierarchical parent-child data.
- Implemented secure authentication and role-based access control for administrative users.
- Applied Laravel validation and development best practices to improve data accuracy and scalability.

EDUCATION

Bachelor of Science in Computer Science

2016 - 2019

Islamiah College (Autonomous) - Thiruvalluvar University

AWARDS & ACHIEVEMENTS

- Best Performer – Quarter I | Colan Infotech | Jul 2022
- Best Performer – Quarter II | Colan Infotech | Jul 2023
- Best Performer – Quarter IV | Colan Infotech | Mar 2024
